

Forest Wildlife Habitat Workshop

Hosted By Tom Brule &
Turner Falls Water Department

June 25, 2011
8:00 a.m. - Noon

Montague Safety Complex
180 Turnpike Road
Montague

Forester and Ruffed Grouse Society volunteer Tom Brule will showcase several forest habitat improvement projects recently completed for the benefit of local wildlife. Andy Weik, Regional Biologist for RGS Biologist will give a slide presentation on the habitat needs of grouse, woodcock, and other wildlife, staff from Massachusetts Department of Conservation and Recreation will highlight the state's Forest Stewardship program for private landowners, and the Natural Resources Conservation Service will be on hand to provide valuable information on cost assistance programs available to landowners for improving their woodlands for wildlife.

The morning presentations (8:00-10:00 a.m.) will be followed by guided tours of recently completed habitat improvement projects (10:30 a.m. - noon).

Please contact Tom Brule: (413) 628-4777, tom.brule@gmail.com
